

BTEC fire investigation workshops

Full day sessions aimed at 2nd year, level 3 BTEC, applied science students covering:

- The general principles of fire behaviour
- Health and safety at scenes
- Recognising different burn patterns and fire origins
- Fire scene: preservation; observation; recording findings; plan drawing; photographs; collection, packaging and preservation of samples;
- The role of different agencies
- Report writing
- Basics requirements of the building regulations in respect to fire safety

With four dedicated fire areas the scenes include

- Electrical faults
- Arson
- Flashover
- Chip pan fire
- Burglary

Our staff are from a fire investigation background and each are experts in their own field. They include CSI with fire investigation specialism and serving fire officers. During the day delegates can draw upon their knowledge as they relate at first hand incidents they have dealt with or have knowledge of.

The cost of the day is directly related to the number of students and is as follows

- Up to 8 students £500
 - 8 to 12 students £650
 - 12 to 15 students £750
 - 15 to 20 students £850
- All prices are subject to vat

All sessions are held at our dedicated crime scene centre in West Yorkshire, the postcode is HD8 9LA

The above costs do not include catering and hospitality. Please contact us if you wish us to arrange accommodation or food.
